We join what was expressed on the website of the Cuban Presidency:
"... Those who designed the farce of San Isidro were wrong about the country, wrong about history and wrong about armed forces. Of course, they were also wrong when choosing their "leaders" for the eternal project of destroying the Cuban Revolution. The selectors and the elected lack the morals to hold a fight for the heart of Cuba
"#SomosCuba #SomosContinuidad. The people of San Antonio reaffirm their commitment to the Revolution.
